Variable, constants and parameters; Simple functional relationship and their graphs; Elementary ideas of differential and integral calculus; Matrix and deteminants; Solution of simultaneous equations; Quardratic equations; Difference and differenatial equations.
Consumer Theory
Utility function; budget line; Constrained optimizaton; Consumer's equilibrium; Income effect; substitution effect and price effect; Slutsky equation; Derivation of demand curve; Elasticity of demand; Consumer's surplus.
Unit II
Theory of Production
Properties of production function - Homogeneous and non-homogeneous; Cobb-Douglas, CES, Returns to scale; Technology progress and production function; Choice of optimal combination of factors of production; Cost and revenue functions; Derivation of cost curves' Relation between total, average and marginal cost and revenue; Producer's surplus; Production possibility curve, Adding up theorem.
Game Theory
Introduction and concepts - simple and mixed strategy; saddle point solution; Prisoner's dilemma; Payoff matrix of a game - two-person-two-commodity and zero-sum game.

Unit III

Market Structure/Pricing

Concept of equilibrium; Equilibrum of the firm under perfect competition, monopoly, price discrimination, monopolisic competition; Subsidies and taxes; Economies of scale; Market equilibrium; Economic interpretation of time lag in function; Cobweb model.

Input-Output Analysis, Linear Programming

Input-output analysis; The simple closed and open model; Linkages, concepts and measurement, Dynamic input-output model; Linear programming - Basic concepts, primal and dual; Basic theorems of linear programming; Graphic and simplex method.

Paper-XII - COMPUTER AND ITS APPLICATIONS

3 Hrs. Duration   **Max. Marks 75**

Unit I

Basic of Computers

Computer fundamentals; Organization and components of a computer; Computer hardware - CPU; Memory; Disk drives; Input and output devices; Keyboard; Mouse and VDU; Computer peripherals like printer, scanner, digitizer, etc., Computer software - Operating system, application software and packages. Contemporary Computer Devices.

Use of Computer for Office Automation

Text editors and word processor software packages; Operative familiarization with any one package like MS-word; Concept and use of spread sheet; Operation and use of MS-excell; (Student is expected to solve the practical problems in MS Excel.)

Unit II

Data Analysis and Trend Forecasting

Basic of statistical functions and analysis - Mean, Median, mode, standard deviation; Distribution function and density function; Statistical package handling and command description for SPSS (Brief Knowledge only);

Regression and auto-regression; Correlation and auto-correlation; Covariance and Auto covariance.

Basic of Database; Table; Records and fields; Data entry and querry processing; Operative principles of MS-access; Document formation and presentation through MS-power point.

Unit III

Applications

Text and mail communication using computers; E-mail; Chat; Choice mail; Document transfer and delivery; Internet; World Wide Web (WWW) and use for business and commercial activities like e-business and e-commerce; Electronic stock market and exchanges; B2B and B2C Concepts.

Practical on Computer and Its Application

2 hrs Duration   **Max. Marks 25**

The practicals will be based on all he five units of theory paper as given below:-

a.	Record	5 Marks.
b.	Viva- Voce	5 Marks.
c.	Practical Exercise	15 Marks.

Duration for practical examination shall be of 2 Hours and more than 2 batches of 20 students each should be examined in a day by a single examiner. Candidate is required to pass theory and practical separately.

4. GEOGRAPHY

Paper	Duration	Max. Marks	Mini. Marks
IX	3 hrs.	80	128(40%)
X	3 hrs	80	
XI	3 hrs	80	
XII	3 hrs	80	
Practical		80	32 (40%)

(For each batch of 20 students)

Total = 320+80 = 400, 128+32 = 160

Student will have to pass separately in theory and practical . Note : A weekly seminar is to be arranged for all Hons. classes

PAPER - IX: EVOLUTION OF GEOGRAPHICAL THOUGHT & METHODOLOGY

Duration: 3 hrs.   Max. Marks : 80
